

# BOB GRAWI

THERE'S NOTHING BUT SPIRITUALITY! Many people think that spirituality is just the good part of living, but really everything we do, know, and feel is an expression of the spirit. Even the worm has a spirit! *"From the worm that feels spring's madness, to the angel near God's Throne"*. Joy fills the universe... Beethoven's *"Ode To Joy"* – Schiller (1759 - 1805). We create from our deep sense of joy and also from our lack of it. As humans we are capable of making and enjoying music. Music is perhaps the most universal and transcendent form of longing and spiritual expression that exists. We can all find solace in some forms of music that embrace our spirits. If we can, we create our own, and send more music out into the vast world of hungry spirits, and sometimes we have the profound experience of having it come back to us from those who are able to commune with it. This sharing is the essence of human communication and empathy. Without music how much poorer would be our lives!
